# Water-drop

## Personalizzazione e creatività *Personalization and creativity.*

La collezione “Water-drop” combina design, ricerca di armonia e funzionalità. Progettata appositamente per decorare ambienti umidi, come bagni, cucine e SPA, l’intera collezione può anche essere applicata in spazi living.

La particolarità di questa collezione è la possibilità di creare combinazioni tra i decori e i relativi fondi in abbinamento.

Questo permette di decorare in modo creativo gli ambienti con vari livelli di una stessa grafica ottenendo un grado di personalizzazione maggiore. Immagina di decorare l’interno di una doccia con un motivo floreale e rivestire il pavimento di tutto l’ambiente bagno con un fondo più neutro che dia uniformità all’insieme.

Grazie alle texture naturalistiche e ai motivi geometrici, “Water-drop” offre la possibilità di portare all’interno degli spazi una combinazione di design contemporaneo ed eleganza.

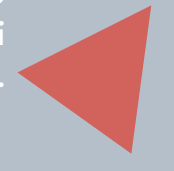

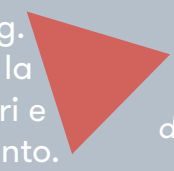

Dagli effetti che richiamano pietre e minerali, alle geometrie precise, ogni disegno trasmette un senso di armonia e ricercatezza. Le tonalità e i pattern sono pensati per creare un equilibrio tra estetica e funzionalità, trasformando ogni progetto bagno in un ambiente unico.

“Water-drop” collection combines design, harmony and functionality. Specifically designed to decorate humid environments, such as bathrooms, kitchens and SPA, the entire collection can also be applied to living areas.

The distinctive feature of this collection is the possibility to create combinations between the decorative patterns and their matching backgrounds. This allows the decoration of spaces with various layers of the same design, achieving a higher level of personalization. Imagine decorating the interior of a shower with a floral motif while covering the entire bathroom with a more natural background that brings cohesion to the whole space.

Thanks to its naturalistic textures and geometric patterns, “Water-drop” offers the opportunity to bring a blend of contemporary design and elegance into your spaces.

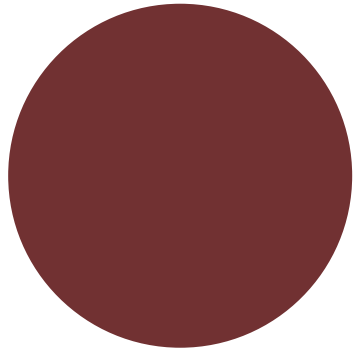

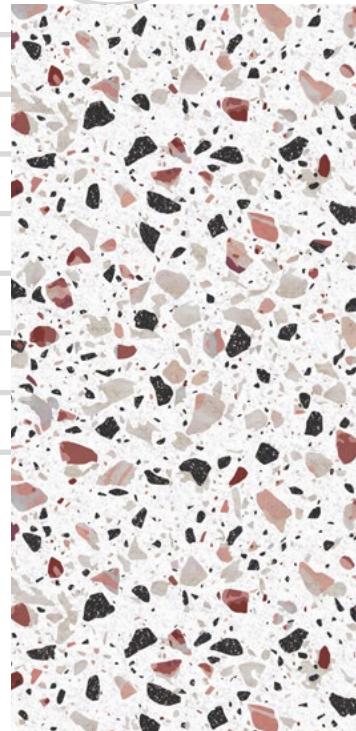

From effects reminiscent of stones and minerals to precise geometries, each design conveys a sense of harmony and refinement. The colors and patterns are crafted to create a balance between aesthetics and functionality, transforming each bathroom project into a unique environment.
