L'arte dell'equilibrio  
nello spazio

The art of balance  
within space

Un dialogo tra luce e ombra, tra il visibile e il suggerito. La collezione Monochrome si racconta come un'ode all'armonia, dove il colore diventa linguaggio e le forme sussurrano storie di eleganza contemporanea. Ogni elemento decorativo nasce per trasmettere un senso di pace visiva, trasformando gli ambienti in rifugi emotivi, avvolgenti e sofisticati. Geometrico, materico, astratto, pittorico: gli stili della collezione esplorano la ricchezza del design con un approccio raffinato e variegato al tempo stesso. Bilanciando pieni e vuoti, chiari e scuri, ogni grafica si inserisce con grazia all'interno dell'ambiente che la ospita, elevando lo spazio e amplificandone la personalità. Monochrome non è solo una collezione di carte da parati e tappeti: è un invito a riscoprire il valore della semplicità attraverso il potere della decorazione. In ogni progetto, lascia che sia la purezza delle linee e la forza del colore a raccontare la tua visione.

*A dialogue between light and shadow, between the visible and the suggested. The collection Monochrome is an ode to harmony, where color becomes language and shapes whisper stories of contemporary elegance. Each decorative element is created to convey a sense of visual peace, transforming rooms into emotional, enveloping and sophisticated refuges. Geometric, textural, abstract and pictorial: the styles of the collection explore the richness of design with an approach that is both refined and varied. Balancing solids and voids, light and dark, each graphic fits gracefully within its host environment, elevating the space and amplifying its personality. Monochrome is not just a wallpapers and rugs collection: it is an invitation to rediscover the value of simplicity through the power of decoration. In each project, let the lines and the power of color tell your vision.*

## Equilibrio sensoriale: una nuova armonia

Monochrome bilancia tecnologia e tradizione, rispondendo al ritmo frenetico della vita moderna con design che calmano e ispirano. Le superfici decorate giocano con chiari e scuri, pieni e vuoti, evocando un'armonia che nutre i sensi. È un incontro tra estetica ed emozione, pensato per ambienti dove bellezza e funzionalità si incontrano.

### *Sensory balance: a new harmony*

*Monochrome balances technology and tradition, responding to the hectic pace of modern life with designs that calm and inspire. Decorated surfaces play with light and dark, solids and voids, evoking a harmony that nourishes the senses. It is an encounter between aesthetics and emotion, designed for environments where beauty and functionality meet.*
